With a nationwide presence, Crédit Mutuel Arkéa has chosen to keep its decision-making centres in the regions. It is a major player in job creation in its regions, and relies on an ongoing recruitment drive. ²⁶ To be included only in the case of an issue for which placement in the UK is contemplated and either (i) the ratings of the notes issued by the EEA CRA are to be endorsed by a UK CRA or (ii) the EEA CRA issuing the ratings of the notes is certified under the UK CRA Regulation."

GENERAL INFORMATION

Paragraph 13 of the section entitled "General Information" on page 178 of the Base Prospectus, as supplemented by the Previous Supplement, is deleted and replaced by the following:

"(13) Senior Preferred Notes to be issued under the Programme are expected to be rated AA-/F1+ by Fitch and Aa3/P-1 by Moody's. Senior Non-Preferred Notes to be issued under the Programme are expected to be rated A+ by Fitch and A3 by Moody's. Subordinated Notes to be issued under the Programme are expected to be rated A- by Fitch and Baa1 by Moody's.

As defined by Fitch, an obligation rated 'AA' denotes expectations of very low default risk. It indicates very strong capacity for payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events. A short-term obligation rated 'F1' indicates a strongest intrinsic capacity of the Issuer for timely payment of its financial commitments. An obligation rated 'A' denotes expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings. The ratings may be modified by the addition of a plus (+) or minus (-) sign to denote relative status within a major rating category.

As defined by Moody's, an obligation rated 'Aa' is judged to be of high quality and subject to very low credit risk. The Issuer capacity to meet its financial commitment when the short-term debt obligation is rated 'P-1' means a superior ability to repay short-term debt obligations. An obligation rated 'A' is judged to be upper-medium grade and subject to low credit risk. An obligation rated 'Baa' is judged to be medium-grade and consequently subject to moderate credit risk and as such may possess certain speculative characteristics.

The Issuer accepts no responsibility for the accuracy or reliability of the ratings. A credit rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, change or withdrawal at any time by the assigning credit rating agency.

Fitch and Moody's are established in the European Union and registered under the EU CRA Regulation and are included in the list of credit rating agencies registered in accordance with the EU CRA Regulation published by the ESMA on its website as of the date of this Base Prospectus⁴⁰.
