The customer portfolio rose to 5.5 million, driven mainly by **online** (+104,000 customers) and **regional retail networks** (+15,000),

The portfolio of **white-label customers** (managed by Procapital Securities Services, Monext, Nextalk, Arkéa Banking Services) increased by 1.9% versus H1 2024, to 2,124 customers.

H1 2025: A STRONG GROUP CONFIRMING THE RELEVANCE OF ITS MODEL

Despite a highly uncertain environment:

- Good commercial momentum across all business lines generated **revenues of €1,148 million, up 10%**.
- Operating expenses were €785 million, up by a limited 3%, as the Group's operational efficiency programme is paying off. As a result, the **cost/income ratio rose by 4.5pp to 68.3%**
- Cost of risk increased by €11 million to €87 million. This reflects a high-quality loan book with a **cost of risk on outstanding loans of 19 bp** (+2 bp compared with H1 2024).

Net income attributable to equity holders of the parent was €196 million, up by €29 million, despite the effects of the exceptional corporate income tax surcharge.

These initiatives lay the foundations for a cross-functional, synergistic organisation focused on customers and the Group's development.

NON-FINANCIAL PERFORMANCE

In October 2021, Crédit Mutuel Arkéa became the **first French bank to measure its non-financial impacts in euros.**

COMPANY WITH A MISSION

In May 2022, the Group adopted the status of a company with a mission, **proof of its commitments, including social and environmental considerations in its actions and decisions.**

SUSTAINABLE FINANCE

Adoption in 2023 by Crédit Mutuel Arkéa of the first climate targets for 2030, **as it extended its membership of the Net Zero Banking Alliance. The Group's commitments are also embedded in 12 sectoral and thematic policies**

ORLANDO

With the success of the Orlando project (CCF IT migration and hosting project), the entities of the B2B division confirmed their **strategy of refocusing on their markets of expertise, with activities that consume little capital and rising net income.**

³ With a CET1 tolerance of 15% in the event of exceptional circumstances (external growth, investments, absorption of exogenous shocks, etc.) and in accordance with the Group's risk appetite framework.

⁴ Outstanding investments in private equity (Arkéa Capital) plus the Group's outstanding loans supporting the real economy in France (i.e. excluding consumer loans - AFS, CFCAL, Federations - and Keytrade).

2 “FAIRE 2030” OUR DEVELOPMENT AMBITIONS

AVEC VOUS, DE TOUTES NOS FORCES.

1 Be a major player in the sustainable development of the regions

- Make the Group a committed and winning leader in Bretagne and in our three departments in the South-West
- Roll out the know-how developed in our historical regions at the national level
- Continue to prove that finance is a tool for a more sustainable world

2 Continue opening up our business model and develop boldly

- Accelerate hard on online banking
- Assert our role as a committed player in private equity and responsible asset management
- Accelerate our strategy of openness and partnership, particularly for our insurance activities
- Deploy our expertise in banking and insurance services to support the development of our B2B partners and Group entities

2 "FAIRE 2030" OUR TRANSFORMATION AMBITIONS

AVEC VOUS, DE TOUTES NOS FORCES.

1 Commit to a Crédit Mutuel Arkéa customer promise

- Offer a unique and impactful experience
- Everyone committed to make good on our promise: to make the customer an absolute priority and aim for excellence in the customer experience

2 Improve operational efficiency

- Tailor the organisation to our strategic ambitions
- Redesign and simplify our operating methods
- Rethink management to meet the challenges of transformation

3 Support a committed community

- Employees: strengthen the Group culture, improve cross-functionality, create the conditions for engagement and employability among our employees
- Directors: strengthen their role as ambassadors for the Group in the regions and accentuate cohesion with employees

H1 2025 RESULTS

3 10% RISE IN REVENUES

EVOLUTION OF REVENUES (in €M)

BREAKDOWN OF REVENUES BY BUSINESS LINES

The divisional breakdown of revenues is based on Crédit Mutuel Arkéa's new organisational structure, implemented under its "Faire 2030" strategic plan.

For further information see the [press release](#).

Healthy commercial momentum across Group business lines supported the €1.1 billion revenues generated in H1 2025.

Revenues increased by 10% compared to H1 2024:

- The **financial margin** increased, driven by the improvement in the net interest margin thanks notably to lower interest rates on customer deposits;
- **Commissions** increased, driven by the increase in assets under management and the growth of the customer portfolio (including white label services*);
- **Insurance revenues** were up, driven by growth in assets under management and a lower claims.

Crédit Mutuel Arkéa's business model is reflected in a good diversification of its revenues between business lines.

In the first half of 2025, 41% of revenues came from retail banking activities.

* B2B white label activities (ABS, ProCapital, Monext, Nextalk) of the Technologies & Services division

3 CONTAINED 3% INCREASE IN OPERATING EXPENSES

EVOLUTION OF OPERATING EXPENSES (in €M)

Launched in 2024, the plan to improve the Group's operational efficiency has paid off.

Other expenses were down by €11 million.

3 IMPROVED COST/INCOME RATIO AT 68.3%

EVOLUTION OF THE COST/INCOME RATIO

The cost/income ratio dropped by 4.5 pp to 68.3%

The increase in revenues (+€101 million) coupled with a controlled growth in operating expenses enabled this improvement in the cost/income ratio.

Gross operating income (€364 million) increased by 28% compared to H1 2024, reflecting a tight control on costs while maintaining a solid level of revenues, a sign of profitability and operational efficiency.

COST OF RISK (in €M)

A €11 million increase in cost of risk (+15.1% compared to H1 2024), **i.e. an annualised level of 19 bp** of on-balance sheet customer loans.

This level of 19 bp and the non-performing loans ratio of 1.8% are among the lowest among French banks thanks to the quality and diversification of the customer loan book.

- The cost of risk mainly comes from bucket 3, including €94 million on non-performing loans, up €4 million as corporate insolvencies remained elevated.

B3 outstandings: €2.0 billion

- The cost of risk on performing loans was €7 million higher in H1 2025, as an additional provision overlay was booked to cover the risks of an uncertain geopolitical environment.

B1/B2 outstandings: €91.4 billion

A QUALITY LOAN PORTFOLIO

Crédit Mutuel Arkéa has a low exposure to the sectors most exposed to higher tariffs*. At end-June 2025, it represented less than 1% of total customer loans..

* Wine / Automotive / Steel / Aerospace / Luxury / Cosmetics

BALANCE SHEET METRICS

GROSS CUSTOMER LOANS (in €bn)

■ State-guaranteed loans (PGEs)
 ■ Liquidity facilities
 ■ Consumer loans
■ Home Loans
 ■ Professionals & corporates
 ■ Public sector

Outstanding loans reached €92.8 billion (+1,9%)

Loan production was €7.1 billion in H1 2025, a 10.5% increase compared with H1 2024 (€6.4 billion). The most important increase in new lending was in **home loans**, which grew 25% compared to H1 2024, rebounding from the gloomy real estate market in 2024.

CUSTOMER SAVINGS (in €bn)

Total savings of €183.3 billion (+0.8%)

Net savings inflows in H1 2025 reached €1 billion. Insurance savings were the main contributor to the increase in savings in H1 2025, with insurance net inflows 56% higher than in H1 2024.

As interest rates on deposits fell, banking savings recorded a net outflow during the half-year.

EVOLUTION OF CUSTOMER SAVINGS (in €bn)

A DECREASE IN RISK-WEIGHTED ASSETS DUE TO CRR3

TOTAL RISK WEIGHTED ASSETS (in €bn)

Risk-weighted assets (RWA) fell by €2 billion compared with end-2024 to €48.9 billion.

The regulatory environment was marked by the entry into force on 1 January 2025 of the prudential requirements following finalisation of Basel 3 (CRR 3 - Capital Requirements Regulation 3). This change had a favourable impact on the level of risk-weighted assets, especially a decrease in the weighting of the stake in insurance subsidiaries..

93% of risk-weighted assets relate to credit risk exposures, of which nearly half apply the standardised approach.

SUSTAINABLE FINANCE

In line with commitment since several years in favour of more sustainable economy and finance, **we support CSRD ambitions.**

The double materiality analysis is instrumental to the group's strategy

- Better knowledge of our value chain
- **Necessary double approach: financial and extra-financial**
- Prioritization of **key sustainability issues** for our business mix and regions: **climate, biodiversity and water**

Corporate sustainability report is necessary for financial institution such as Crédit Mutuel Arkéa, in order to support sustainable financing and investments.

- Standardised and higher-quality ESG data
- Forward-looking **view to analyse transition plan**

6 EXTRA-FINANCIAL PERFORMANCE

A continuous improvement approach

In line with regulations (particularly the **CSRD**), the measurement of non-financial performance aims to provide concrete decision-making support for the Group and its subsidiaries, supported by these changes.

ALIGNMENT WITH THE CSRD

The indicator used in 2024 has changed, reflecting changes in some external databases to **align with the main principles of the CSRD**, new EU Directive governing sustainability reports

On environmental issues, our assumptions for financial years 2020-2023 were more challenging overall than those used as market benchmarks under the CSRD.

NEW INDICATOR

This indicator consists of estimating **the contribution to French food sovereignty of farmers** supported by CM Arkéa.

The approach used is **self-sufficiency**, i.e. the share of French consumption covered by the production of France's various agricultural sectors.

GRANULAR DATA COLLECTION

Further improvements were made to our non-financial performance indicator with **granular data collection** from counterparties.

This year, in the financing scope, detailed GHG emissions data were used to measure a subsidiary's car and motorcycle loans based on vehicle engines for an outstanding amount of €2.1 billion.

NON-FINANCIAL IMPACTS (in €M)

€9.3bn

Non-financial impacts

Crédit Mutuel Arkéa's non-financial performance amounted to €9.3bn in 2024, stable compared to 2023.

Work is continuing to integrate increasingly granular non-financial data for counterparties (example in 2024: engines of financed vehicles). Even so, the measurement is currently closely correlated with external data published by reference databases at the national level.
